FIORIERA SUN A PARETE

Floriera in fusione di ghisa EN-GJL-200 UNI EN 1561 a forma di semiellissoidale, con spessore di parete compreso tra 6 e 8 mm, chiusa inferiormente, decorata in prossimità del bordo superiore con elementi stilizzati, che richiamano gli stilemi d'urne funerarie romane.

La floriera reca sul fondo un foro per consentire un adeguato drenaggio del terreno inseritovi.

La fioriera può essere dotata d'elementi d'aggancio al sottostante lastrico.

Massa: 75 kg circa.

Flower box in melting cast iron EN-GJL-200 UNI EN 1561 with a semi ellipsoid shape, with wall thickness included between 6 and 8 mm, inferiorly closed, decorated close to the upper side with stylised elements, which recall the styles of the Roman funeral urns.

The flower box bears on the bottom a hole to allow an adequate soil drainage of the inserted soil.

The flower box can be equipped with hooking elements to the underlying paving.
